#### **Report of Independent Auditors**

To the Board of Trustees of the University of Notre Dame du Lac

#### **Opinion**

We have audited the accompanying consolidated financial statements of the University of Notre Dame du Lac and its subsidiaries (the "University"), which comprise the consolidated statements of financial position as of June 30, 2022 and 2021, and the related consolidated statements of changes in net assets, of functional expenses and of cash flows for the years then ended, including the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the University as of June 30, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for one year after the date the financial statements are issued.

#### Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

ricewaterhouse Coopers LLP

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Chicago, Illinois November 11, 2022

# NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **BASIS OF PRESENTATION**

The University of Notre Dame du Lac is a private Catholic research university. The accompanying consolidated financial statements include the assets, liabilities, and activities of certain other entities under the financial control of the University of Notre Dame du Lac. This includes the wholly-owned limited liability company cited in *Note 7* and *Note 12*, which operates a commercial property in Chicago, Illinois, for investment purposes. The University of Notre Dame du Lac and entities included herein are referred to individually and collectively as the "University."

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The consolidated financial statements reflect the activities of the University as a whole and present balances and transactions according to the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified as follows:

Net Assets Without Donor Restrictions—Net assets not subject to donor-imposed restrictions and available for any purpose consistent with the University's mission. Revenues from grants and contracts subject to conditions and purpose restrictions are recognized within changes in net assets without donor restrictions in the period in which those conditions and restrictions are met. Other revenues are generally reported as increases in net assets without donor restrictions unless the use of the related assets is limited by donor-imposed restrictions. Investment returns generated by funds functioning as endowment and other sources are also classified as changes in net assets without donor restrictions unless the use of the related assets is limited by donor-imposed restrictions. Operating expenses are reported as decreases in net assets without donor restrictions.

Net Assets With Donor Restrictions—Net assets that are either required to be maintained in perpetuity by donors or are subject to donor-imposed purpose restrictions that must be met by actions of the University and/or passage of time. Net assets subject to donor-imposed restrictions requiring they be maintained in perpetuity are generally restricted to long-term investment and are comprised primarily of donor-restricted endowment funds. Subject to the University's endowment spending policy, investment returns on perpetually restricted endowment funds are generally available for appropriation to support operational needs as specified by donor restriction. Contributed assets with a non-perpetual restriction normally fund specific expenditures of an operating or capital nature. Unconditional restricted contributions or investment returns received and expended within the same fiscal period are reported as increases in net assets with donor restrictions and net assets released from restrictions, respectively.

(All amounts in thousands)

The University's measure of operations presented in the consolidated statements of changes in net assets includes revenues from net tuition and fees, grants and contracts, contributions for operations, endowment payout distributed under the University's spending policy, revenues from auxiliary enterprises, and other sources. Operating expenses are summarized in the consolidated statements of functional expenses by natural classification and functional categories. Costs incurred in direct support of the University's primary mission, including those for instruction, research, public service, academic support, and student services, are reflected within the *academic programs and research* functional category. Interest from taxable bonds and other debt is allocated to functional categories based on the proportion of expenses charged directly to each function prior to allocating costs for operations and maintenance of plant. Interest from tax-exempt bonds is allocated to functional categories based on the square footage occupancy of the related facilities. Costs for operations and maintenance of plant and depreciation are allocated to functional categories based primarily on square footage occupancy.

Non-operating activities presented in the consolidated statements of changes in net assets include contributions designated by the University or restricted by donors for endowment or investment in buildings and equipment, investment return net of the endowment payout for operations, any gains or losses on debt-related derivatives, and certain pension and postretirement benefits-related changes in net assets. Other non-operating changes in net assets include the net activities of the consolidated limited liability company described in *Note 7* and *Note 12*, the effect of changes in donor intent with respect to endowment and other funds, and other activities considered unusual or non-recurring in nature. Non-operating net assets released from restrictions generally reflect the expenditure of net assets restricted to investment in buildings and equipment and other expirations of term restrictions.

#### **NET TUITION AND FEES**

Tuition and fees for instruction and other educational services, net of scholarships and fellowships, are substantially billed and collected prior to the end of each semester. Revenues are earned and recognized over the course of each semester as educational services are delivered. Accounts receivable from students are typically insignificant at the end of each fiscal year.

Tuition scholarships and fellowships

As reflected in *Note 18*, student financial aid in the form of undergraduate scholarships, athletics grants-in-aid, and graduate and professional fellowships is reflected as contra-tuition revenue in the consolidated statements of changes in net assets.

(All amounts in thousands)

#### GRANTS AND CONTRACTS

Grants for basic research and other sponsored programs are generally subject to restrictions and conditions that must be met before the University is entitled to funding. Accordingly, advances from granting agencies are generally considered refundable in the unlikely event specified activities are not completed. The University recognizes revenues on grants for basic research and other sponsored programs as the awards for such programs are expended since expenditure in accordance with award terms typically results in the simultaneous release of restrictions and conditions imposed by the grantor. Revenue from exchange contracts for applied research is recognized as the University's contractual performance obligations are substantially met. Indirect cost recovery by the University on U.S. government grants and contracts is based upon a predetermined negotiated rate and is recorded as grants and contracts revenue.

#### **AUXILIARY ENTERPRISES**

The University's auxiliary enterprises consist principally of intercollegiate athletics and enterprises that provide goods and services to the campus community, such as residence and dining halls, hospitality enterprises, bookstores, and event management services. These enterprises are managed as self-supporting activities. Revenues and expenses from auxiliary enterprises are reported as changes in net assets without donor restrictions.

Certain auxiliary revenues arise from contracts. Revenues from intercollegiate athletics ticket sales, media rights, licensing, royalties, and other contracts are received and recognized concurrent with event-based obligations or the passage of contract terms, but typically within the fiscal year. However, season ticket proceeds received prior to the report date for events scheduled in future years are recorded as deferred revenue and recognized as the associated events are completed. Charges to students for campus residence, dining, and laundry services are substantially billed and collected prior to the end of each semester. Associated revenues are earned and recognized over the course of each semester as these services are delivered. Revenues are reported net of scholarships and fellowships allocated to room and board, the total of which is insignificant. Accounts receivable from students are typically insignificant at the end of each fiscal year. Revenues generated by on-campus event management, including those from hosting concerts and professional sporting events, are recognized as event-based obligations are fulfilled. Associated contract-related liabilities at year end are insignificant.

#### CASH AND CASH EQUIVALENTS

Resources invested in money market funds and other short-term investments with maturities at the date of purchase of three months or less are classified as cash equivalents, except that any such investments purchased by external investment managers are classified as investments. Substantially all cash and cash equivalents are concentrated in accounts in which balances exceed Federal Deposit Insurance Corporation limits.

#### ACCOUNTS RECEIVABLE

Accounts receivable are recorded at face value and typically have contractual maturities of less than one year.

Allowance is made for uncollectible accounts based upon management's expectations and past collection experience.

(All amounts in thousands)

#### CONTRIBUTIONS RECEIVABLE

Pledges that represent unconditional promises to give are recognized at fair value as contributions with donor restrictions in the period such promises are made by donors. Contributions are discounted at a risk-adjusted rate commensurate with the duration of the donor's payment plan. Amortization of the discounts is recorded as additional contribution revenue. Allowance is made for uncollectible contributions based upon management's expectations regarding the collection of outstanding promises to give and past collection experience.

#### NOTES RECEIVABLE

Notes receivable, which are recorded at face value, principally represent amounts due from students under federal Perkins and institutional loan programs. A general allowance is made for uncollectible student loans after considering both long-term collection experience and current trends, such as recent default rates of cohorts entering repayment status. Other notes receivable are evaluated individually for impairment, with allowances recorded based on management's expectations given facts and circumstances related to each note.

#### **LEASES**

The University leases space and equipment for academic and administrative purposes under noncancelable operating leases. Right-of-use assets and liabilities reported in the consolidated statements of financial position are initially recognized at the present value of future minimum lease payments, which are discounted at an incremental borrowing rate appropriate to the duration of the lease term. Options to extend a lease are reflected in these amounts if and when it becomes reasonably certain the University will exercise such options. Right-of-use assets and lease liabilities are reported in the consolidated statements of financial position within the *deferred charges and other assets* and *deposits and other liabilities* lines, respectively.

The University has elected to exclude leases with an initial term of 12 months or less from the amounts reported in the consolidated statements of financial position.

#### **INVESTMENTS**

Investments are stated at estimated fair value. The University measures the fair values of investments in securities at the last sales price of the fiscal year on the primary exchange where the security is traded. Non-exchange-traded instruments and over-the-counter positions are primarily valued using independent pricing services, broker quotes, or models with externally verifiable inputs. The fair values of alternative investments (interests in private equity, hedge, real estate, and other similar funds) for which quoted market prices are not available are generally measured based on the reported partner's capital or net asset value ("NAV") as a practical expedient. The reported partner's capital or NAV provided by associated external investment managers is subject to management's assessment that the valuation provided is representative of fair value. Management exercises diligence in assessing the policies, procedures, and controls implemented by its external investment managers, and thus believes the carrying amount of these assets represents a reasonable estimate of fair value. However, because alternative investments are generally not readily marketable, their estimated value is subject to inherent uncertainty and therefore may differ from the value that would have been used had a ready market for such investments existed.

(All amounts in thousands)

Investments Held on Behalf of Other Entities

The University serves as the trustee for its employees' defined benefit pension plan, managing the investment assets held within the plan. The University also invests funds on behalf of religious affiliates that share the University's Catholic ministry and educational missions. Accordingly, the University reports an equal asset and liability in the consolidated statements of financial position representing the value of investments managed on behalf of these entities.

#### DEBT-RELATED DERIVATIVES

The University utilizes derivatives in a limited manner outside of its investment portfolio. As described in *Note* 13, interest rate swap agreements are used to manage interest rate risk associated with future anticipated bond obligations. These swaps are reported in the consolidated statements of financial position at fair value. Fair value is estimated based on pricing models that utilize significant observable inputs, such as relevant interest rates, that reflect assumptions market participants would use in pricing the instruments. Any gains or losses resulting from changes in the fair value of these swaps or periodic net cash settlements with counterparties, including settlements related to their termination of such agreements, are recognized as non-operating changes in net assets without donor restrictions.

#### LAND, BUILDINGS, AND EQUIPMENT

Institutional properties are stated at cost or estimated fair value if acquired by gift, less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, averaging 15 years for land improvements, 25-50 years for buildings, and 5-25 years for equipment.

The University does not capitalize the cost of library books, nor the cost or fair value of its art collection. The latter is held for exhibition and educational purposes only and not for financial gain.

Conditional Asset Retirement Obligations

The University recognizes asset retirement obligations when incurred. A discounting technique is used to calculate the present value of the capitalized asset retirement costs and the related obligation. Asset retirement costs are depreciated over the estimated remaining useful life of the related asset and the asset retirement obligation is accreted annually to the current present value. Upon settlement of an obligation, any difference between the retirement obligation and the cost to settle is recognized as a gain or loss in the consolidated statements of changes in net assets. The University's conditional asset retirement obligations relate primarily to asbestos remediation and will be settled upon undertaking associated renovation projects.

(All amounts in thousands)

#### SPLIT-INTEREST AGREEMENTS

The University's split-interest agreements consist of charitable gift annuities and irrevocable charitable remainder trusts for which the University serves as trustee. Contribution revenue is recognized at the date a gift annuity or trust is established after recording a liability at the fair value of the estimated future payments to be made to beneficiaries. Estimated future payments to beneficiaries are discounted at a risk-adjusted rate. Liabilities are adjusted during the terms of the agreements to reflect payments to beneficiaries, returns on trust assets, accretion of discounts, and other considerations that affect the estimates of future payments. Net adjustments to the liabilities are recorded as changes in the value of split-interest agreements.

#### FAIR VALUE MEASUREMENTS

Fair value measurements reflected in the consolidated financial statements conceptually represent the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Generally accepted accounting principles provide a hierarchy that prioritizes the inputs to fair value measurements based on the extent to which inputs to valuation techniques are observable in the marketplace. The hierarchy assigns a higher priority to observable inputs that reflect verifiable information obtained from independent sources and a lower priority to unobservable inputs that would reflect the University's assumptions about how market participants would value an asset or liability based on the best information available. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs.

The three levels of the hierarchy of inputs used to measure fair value are described briefly as follows:

Level 1—Unadjusted quoted prices in active markets for identical assets or liabilities that are available at the measurement date.

Level 2—Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3—Unobservable inputs for the asset or liability, used in situations in which little or no market activity exists for the asset or liability at the measurement date.

The categorization of fair value measurements by level of the hierarchy is based upon the lowest level input that is significant to the overall fair value measurement for a given asset or liability.

If changes in the inputs used in the fair value measurement of an asset or liability result in a transfer of the fair value measurement to a different categorization (e.g., from Level 3 to Level 2), such transfers between fair value categories are recognized at the end of the reporting period.

#### **USE OF ESTIMATES**

The preparation of consolidated financial statements in accordance with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

(All amounts in thousands)

#### TAX STATUS

The University is exempt from federal income taxes under section 501(c)(3) of the Internal Revenue Code, except to the extent the University generates unrelated business income. The University is also subject to excise taxes on net investment income and executive compensation.

#### SUBSEQUENT EVENTS

The University has evaluated subsequent events through November 11, 2022, the date the financial statements were issued. No events requiring disclosure were identified.

# NOTE 2. FINANCIAL ASSETS AND LIQUIDITY RESOURCES

Financial assets and liquidity resources available within one year for institutional needs, such as operating and capital expenses, are summarized as follows at June 30:

	2022	2021
Cash and cash equivalents	\$ 104,938	\$ 148,031
Accounts receivable, net ( <i>Note 3</i> )	76,628	68,011
Contributions receivable, net ( <i>Note 5</i> )	77,124	72,438
Notes receivable ( <i>Note 6</i> )	2,749	2,715
Investments approved for appropriation in the subsequent year	554,787	499,298
Total financial assets available within one year	816,226	790,493
Undrawn lines of credit ( <i>Note 9</i> )	346,000	417,000
Unissued commercial paper (Note 9)	400,000	364,997
Total financial assets and liquidity resources available within one year	\$ 1,562,226	\$ 1,572,490

The University manages its financial assets and liquidity resources to be available to fund expenditures and fulfill liabilities and other commitments as they become due. To supplement cash needs, the University maintains various short-term borrowing facilities, as described in *Note 9*. The University's excess working capital is invested in either short-term investments or the Notre Dame Endowment Pool ("NDEP").

As reflected in *Note 7*, the University held nearly \$4.5 billion in investment assets at June 30, 2022, that were measured using Level 1 and Level 2 fair value inputs. Although these assets are generally liquid within the near term, they are only considered available for expenditure to the extent they are designated as short-term working capital investments or approved for appropriation during the annual budget process under the University's endowment spending policy. Investments approved for appropriation in the subsequent year are calculated based on a board-approved spending rate. The University also has the ability to make additional one-time appropriations from working capital and endowment funds without donor restrictions to the extent that there are sufficient liquid investment assets.

(All amounts in thousands)

### NOTE 3. ACCOUNTS RECEIVABLE

Accounts receivable are summarized as follows at June 30:

	 2022	2021
Research and other sponsored programs support	\$ 37,191	\$ 31,398
Rights and royalties receivable	16,516	22,751
Other receivables	23,728	22,676
	 77,435	76,825
Less allowances for uncollectible amounts	807	8,814
	\$ 76,628	\$ 68,011

# NOTE 4. DEFERRED CHARGES AND OTHER ASSETS

Deferred charges and other assets are summarized as follows at June 30:

	 2022	2021
Debt-related derivatives (Note 13)	\$ 60,148	\$ 40,257
Operating lease right-of-use assets	33,528	36,711
Collateral on debt-related derivatives (Note 13)	20,920	-
Prepaid expenses	20,390	16,285
Goodwill	6,455	6,455
Beneficial interests in perpetual trusts	5,343	6,610
Retail and other inventories	5,253	5,297
Other deferred charges	 6,696	5,944
	\$ 158,733	\$ 117,559

# NOTE 5. CONTRIBUTIONS RECEIVABLE

Contributions receivable are summarized as follows at June 30:

	 2022	2021
Unconditional promises expected to be collected in:		_
Less than one year	\$ 251,010	\$ 194,289
One year to five years	279,582	268,834
More than five years	173,533	181,220
·	 704,125	644,343
Less unamortized discounts and allowances	153,663	128,869
	\$ 550,462	\$ 515,474

Contributions receivable are discounted at rates ranging from 0.22 percent to 6.91 percent at June 30, 2022 and 2021. Of the net amount expected to be collected in less than one year, only \$77,124 is expected to be available for operating and capital expenses, as described in *Note 2*.

(All amounts in thousands)

Contributions receivable, net, are classified as net assets with donor restrictions for the following purposes at June 30:

		2022	2021
Expendable funds restricted for (Note 15):	' <u>-</u>		
Operating purposes	\$	63,234	\$ 88,293
Investment in land, buildings, and equipment		115,417	116,370
		178,651	204,663
Endowment funds (Notes 15 and 16):			
Donor-restricted endowment		370,939	309,714
University-designated endowment		872	1,097
		371,811	310,811
	\$	550,462	\$ 515,474

As of June 30, 2022, the University had received conditional pledges of \$28,030, which are not reflected in the accompanying consolidated financial statements. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

NOTE 6. NOTES RECEIVABLE

Notes receivable are summarized as follows at June 30:

	 2022	2021
Student notes receivable, related to:		
Government sponsored loan programs	\$ 4,748	\$ 8,158
Institutional student loans	 10,135	9,824
	 14,883	17,982
Less allowances for uncollectible student notes	413	1,543
	 14,470	16,439
Other notes receivable	2,052	2,574
	\$ 16,522	\$ 19,013

As reflected in *Note 10*, the University maintains a liability for government advances made in prior years to fund student loans, primarily under the Perkins Loan program, the balance of which was \$4,649 and \$7,495 at June 30, 2022 and 2021, respectively. As described in *Note 2*, note receivable collections of \$2,749 are expected to be available for general expenditure within one year. Collections of government-funded student notes receivable are not considered available for general expenditure.

(All amounts in thousands)

# NOTE 7. INVESTMENTS

Investments reflected in the consolidated statements of financial position are summarized as follows at June 30:

		2022	2021
Notre Dame Endowment Pool assets	\$	20,794,960	\$ 22,464,776
Other investments, associated with:			
Endowment and other University designations		104,744	103,245
Split-interest agreements (Note 17)		2,566	8,071
Defined benefit pension plan (Note 14)		231,310	269,680
		338,620	380,996
	\$	21,133,580	\$ 22,845,772
Liabilities associated with investments include the following at June 30:			
· ·		2022	2021
Liabilities representing the fair value of investments held on behalf of:	-		
Religious affiliates	\$	2,001,689	\$ 2,225,212
Defined benefit pension plan (Note 14)		231,310	269,680
	\$	2,232,999	\$ 2,494,892

The Notre Dame Endowment Pool ("NDEP") represents the University's primary investment portfolio. Certain investments, however, are held in specific instruments outside the NDEP to comply with donor requirements or other considerations. The pooled assets and liabilities of the NDEP are summarized as follows at June 30:

	2022	2021
NDEP assets	\$ 20,794,960	\$ 22,464,776
Equity interest in consolidated company <sup>1</sup>	64,830	64,830
NDEP net assets unitized	\$ 20,859,790	\$ 22,529,606

<sup>&</sup>lt;sup>1</sup>As described in Note 1, the University is the sole owner of a limited liability company, the assets and liabilities of which are reflected in the consolidated financial statements. However, the estimated fair value of the University's equity interest in the company is included in NDEP net assets for unitization purposes.

Transactions within participating funds that constitute additions to or withdrawals from the NDEP are unitized on a quarterly basis. The unitized net assets of the NDEP were attributable to the following at June 30:

	 2022	2021
University funds:		_
Endowment and funds functioning as endowment	\$ 16,676,084	\$ 18,001,145
Working capital and other University designations	1,775,683	1,861,478
Student loan funds	1,949	2,115
Split-interest agreements (Note 17)	 404,385	439,656
	18,858,101	20,304,394
Funds invested on behalf of religious affiliates <sup>2</sup>	 2,001,689	2,225,212
	\$ 20,859,790	\$ 22,529,606

<sup>&</sup>lt;sup>2</sup>NDEP holdings were redeemable by religious affiliates at \$9,760.46 and \$9,636.18 per unit (whole dollars) at June 30, 2022, and 2021, respectively.

(All amounts in thousands)

The NDEP is comprised primarily of endowment-related holdings. As such, its investment objectives seek to preserve the real purchasing power of the endowment, while providing a stable source of financial support to its beneficiary programs. To satisfy its long-term rate of return objectives, the NDEP relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The NDEP maintains a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Investment assets are summarized in the following tables by asset class at June 30, 2022 and 2021, respectively:

		2022	
		Other	_
	 NDEP	Investments	Total
Short-term investments	\$ 1,762,334	\$ 2,176	\$ 1,764,510
Public equities	4,739,428	63,465	4,802,893
Private equity	10,117,500	32,092	10,149,592
Multi-strategy	4,175,698	9,577	4,185,275
	20,794,960	107,310	20,902,270
Defined benefit pension plan investments (Note 14)	-	231,310	231,310
	\$ 20,794,960	\$ 338,620	\$ 21,133,580
	_		

er	
ets	Total
31 \$	1,374,125
55	7,059,043
59	10,300,357
71	3,842,567
16	22,576,092
30	269,680
96 \$	22,845,772
83 63 5 3 68	ther ents  831 \$ 655 259 571 316 680 996 \$

Short-term investments include cash and cash equivalents, money market funds, securities with short-term maturities (such as commercial paper and government securities held either directly or via commingled pools with daily liquidity), and the fair value of certain derivative instrument assets (all of which are insignificant). Public equities cover the U.S., as well as both developed and emerging markets overseas, and long/short hedge funds. Private equity primarily includes domestic and foreign buyout and venture capital funds. The multi-strategy class includes core diversifiers that encompass opportunistic investments and hedge fund strategies where the manager has a broad mandate to invest in a variety of asset classes to generate returns less correlated with broad equities markets, as well as fixed-income assets that provide capital protection and diversification given the low correlation to other asset classes.

(All amounts in thousands)

NDEP investments are primarily invested with external managers. The University is committed under contracts with certain external managers to periodically advance additional funding as capital calls are exercised. Capital calls are generally exercised over a period of years and are subject to fixed expiration dates or other means of termination. Uncalled commitments related to NDEP investments are summarized by investment class as follows at June 30:

	 2022	 2021
Public equities	\$ 166,639	\$ 173,380
Private equity	3,653,465	2,868,593
Multi-strategy	759,112	518,567
	\$ 4,579,216	\$ 3,560,540

2021

The following tables reflect fair value measurements of investment assets (excluding defined benefit pension plan assets) at June 30, 2022 and 2021, respectively, as categorized by level of the fair value hierarchy according to the lowest level of inputs significant to each measurement or NAV:

					2022		
	Level 1			Level 2	Level 3	NAV	Total
Short-term investments	\$	2,176	\$	1,762,334	\$ -	\$ -	\$ 1,764,510
Public equities:							
U.S.		1,354,670		-	-	705,164	2,059,834
Non-U.S.		425,738		11,793	-	2,040,820	2,478,351
Long/short strategies		-		-	-	264,708	264,708
Private equity				-	32,092	10,117,500	10,149,592
Multi-strategy:							
Core diversifiers		460,144		548	682,639	2,496,453	3,639,784
Fixed income		129,574		351,635	4,303	59,979	545,491
	\$	2,372,302	\$	2,126,310	\$ 719,034	\$ 15,684,624	\$ 20,902,270

					2021		
	Level 1			Level 2	Level 3	NAV	Total
Short-term investments	\$	1,831	\$	1,372,294	\$ -	\$ -	\$ 1,374,125
Public equities:							
U.S.		1,761,272		-	-	937,518	2,698,790
Non-U.S.		644,512		8,894	186,660	3,040,051	3,880,117
Long/short strategies				-	2,663	477,473	480,136
Private equity		-		-	61,083	10,239,274	10,300,357
Multi-strategy:							
Core diversifiers		332,439		-	312,023	1,884,284	2,528,746
Fixed income		206,282		876,069	56,983	174,487	1,313,821
	\$	2,946,336	\$	2,257,257	\$ 619,412	\$ 16,753,087	\$ 22,576,092

Certain short-term investments and fixed income securities categorized within Level 2 are not traded in active markets but are measured using pricing sources such as broker quotes, or using models with externally verifiable inputs, such as relevant interest or exchange rates.

(All amounts in thousands)

Investments in certain funds within public equities and core diversifiers measured at NAV (or its equivalent) are generally subject to restrictions that limit the University's ability to withdraw capital within the near term. Redemption terms for these funds typically restrict withdrawals of capital for a defined "lock-up" period after investment and thereafter allow withdrawals on a quarterly or annual basis with notice periods ranging from 30 to 180 days. Lock-up periods for such funds generally expire within three years after the measurement date. In addition, investor capital in these funds attributable to illiquid investments, often referred to as "side pockets," generally is not available for redemption until the investments are realized by the fund. Most funds measured at NAV within private equity, as well as certain opportunistic funds within core diversifiers, are not redeemable at the direction of the investor. These funds make distributions to investing partners as the underlying assets of the funds are liquidated. The timing of such liquidations would vary by fund and depend on market conditions as well as other factors. Investments in funds measured at NAV within fixed income are not subject to lock-ups and generally allow for withdrawals on a daily or monthly basis.

At June 30, 2022 and 2021, the fair values of two Level 3 investments in the core diversifiers class were measured using two different techniques. The fair value of one investment was \$254,693 and \$195,612 at June 30, 2022 and 2021, respectively, and was measured using a discounted cash flow technique, the significant unobservable input to which is the discount rate (10 percent). The fair value of the second investment was \$427,946 and \$57,066 at June 30, 2022 and 2021, respectively, and was measured using a third-party appraisal developed using a market-based approach.

Changes in investments (excluding defined benefit pension plan assets) for which fair value is measured based on Level 3 inputs are summarized below for the year ended June 30, 2022:

	1	Beginning					Net		Net	Ending
		balance	Αc	quisitions	I	Dispositions	gain/(loss)	tr	ansfers out	balance
Short-term investments	\$	-	\$	4,926	\$	(4,807)	\$ (119)	\$	-	\$ -
Public equities:										
Non-U.S.		186,660		3,300		-	38,630		(228,590)	-
Long/short strategies		2,663		4,204		(4,961)	(1,906)		-	-
Private equity		61,083		239,206		(270,050)	1,853		-	32,092
Multi-strategy:										
Core diversifiers		312,023		410,715		(193,341)	153,242		-	682,639
Fixed income		56,983		65,628		(117,951)	(357)		-	4,303
	\$	619,412	\$	727,979	\$	(591,110)	\$ 191,343	\$	(228,590)	\$ 719,034

During the year ending June 30, 2022, a Level 3 investment in public equities was transferred to Level 1 upon its initial public offering.

During the year ended June 30, 2022, the University recognized net unrealized gains of \$155,432 on investments still held at June 30, 2022, for which fair value is measured using Level 3 inputs.

(All amounts in thousands)

Changes in investments (excluding defined benefit pension plan assets) for which fair value is measured based on Level 3 inputs are summarized below for the year ended June 30, 2021:

	I	Beginning			tions Dispositions			Net	Net		Ending
		balance	Αc	equisitions		Ispositions		gain	transfers in		balance
Public equities:											
Non-U.S.	\$	82,229	\$	5,118	\$	-	\$	99,313	\$ -	\$	186,660
Long/short strategies		-		-		-		-	2,663		2,663
Private equity		20,002		3,182		(2,082)		3,157	36,824		61,083
Multi-strategy:											
Core diversifiers		213,975		5,346		(2,628)		35,984	59,346		312,023
Fixed income		42,355		257,812		(243,634)		450	=		56,983
	\$	358,561	\$	271,458	\$	(248,344)	\$	138,904	\$ 98,833	\$	619,412

During the year ended June 30, 2021, the University recognized net unrealized gains of \$140,713 on investments still held at June 30, 2021, for which fair value is measured using Level 3 inputs.

Due to the pooled nature of assets held in the NDEP, a portion of any unrealized gains or losses is attributed to NDEP holdings of split-interest agreements and the University's religious affiliates.

#### INVESTMENT RETURN

Investment return as reflected in the consolidated statements of changes in net assets is summarized as follows for the years ended June 30:

	2022	2021		
Income	\$ 181,148	\$ 111,808		
Net gain/(loss):				
Realized	1,487,518	1,915,531		
Unrealized	(2,989,744)	4,979,078		
Investment-related expenses	 (92,060)	(106,686)		
	\$ (1,413,138)	\$ 6,899,731		
Without donor restrictions	\$ (658,361)	\$ 3,185,507		
With donor restrictions	(754,777)	3,714,224		
	\$ (1,413,138)	\$ 6,899,731		

Investment-related expenses consist of fees paid to external investment managers, as well as expenses related to internal investment office operations. Investment-related expenses also include provisions for excise taxes on investment returns and executive compensation.

A portion of accumulated investment returns is distributed annually to beneficiary programs under the University's endowment spending policy. Endowment payout by program is summarized in *Note 16*.

(All amounts in thousands)

### NOTE 8. LAND, BUILDINGS, AND EQUIPMENT

The following is a summary of land, buildings, and equipment at June 30:

	 2022	2021
Land and land improvements	\$ 226,960	\$ 222,329
Buildings	3,055,137	2,933,660
Equipment	429,048	410,140
Construction in progress	83,890	119,291
	3,795,035	3,685,420
Less accumulated depreciation	 1,236,357	1,136,135
	\$ 2,558,678	\$ 2,549,285

Depreciation expense was \$106,856 and \$105,049 for the years ended June 30, 2022 and 2021, respectively.

The University recorded accounts payable and construction retainage associated with construction in progress costs of \$8,326 and \$3,212, respectively, at June 30, 2022. Accounts payable and construction retainage associated with construction in progress costs were \$5,021 and \$4,119, respectively, at June 30, 2021.

Changes in conditional asset retirement obligations are summarized as follows for the years ended June 30:

	 2022		2021	
Beginning of year	\$ 26,453	\$	25,731	
Obligations settled	(158)	(171)		
Revision in estimated cash flows	120		-	
Accretion expense	 922			
End of year (Note 11)	\$ 27,337	\$	26,453	

### NOTE 9. SHORT-TERM BORROWING

At June 30, 2022, the University maintained a \$400,000 self-liquidity commercial paper program under which it could issue taxable commercial paper. The University also maintained six unsecured lines of credit with commercial banks at June 30, 2022, in the aggregate amount of \$775,000 to be utilized primarily for working capital purposes. Three lines of credit totaling \$425,000 mature during the year ending June 30, 2023. Termination dates for the remaining three lines of credit totaling \$350,000 ranged from January 2024 to December 2024.

Total outstanding balances on short-term borrowing are summarized below at June 30:

	 2022	2021
Commercial paper	\$ -	\$ 35,003
Lines of credit	 4,000	8,000
	\$ 4,000	\$ 43,003

Total costs incurred on short-term borrowing, including interest and related fees, were approximately \$1,564 and \$3,714 for the years ended June 30, 2022 and 2021, respectively.

### **Notes to Consolidated Financial Statements**

(All amounts in thousands)

# NOTE 10. DEFERRED REVENUE AND REFUNDABLE ADVANCES

Deferred revenue and refundable advances are summarized as follows at June 30:

	 2022	2021
Refundable advances for research and other sponsored programs ( <i>Note 19</i> )	\$ 108,990	\$ 65,200
Deferred ticket sales and other revenues from intercollegiate athletics	58,073	45,422
Deferred rental revenues	24,994	25,641
Deferred tuition and other student revenues	16,705	17,162
Government advances for student loans (Note 6)	4,649	7,495
Other deferred revenues	8,045	7,549
	\$ 221,456	\$ 168,469

### NOTE 11. DEPOSITS AND OTHER LIABILITIES

Deposits and other liabilities are summarized as follows at June 30:

	 2022	2021
Accrued compensation and employee benefits	\$ 88,596	\$ 89,553
Payroll and other taxes payable	50,876	52,574
Operating lease liabilities	33,528	36,711
Conditional asset retirement obligations ( <i>Note 8</i> )	27,337	26,453
Debt-related derivatives ( <i>Note 13</i> )	26,769	57,640
Obligation to return collateral on debt-related derivatives ( <i>Note 4</i> )	20,920	-
Accrued interest expense	15,363	15,367
Student organization funds and other deposits	9,959	9,223
Other liabilities	29,694	17,293
	\$ 303,042	\$ 304,814

### NOTE 12. BONDS AND NOTES PAYABLE

Bonds and notes payable consist of the following at June 30:

	2022	2021
Obligations of the University:		
Taxable Fixed Rate Bonds	\$ 1,215,000	\$ 1,215,000
St. Joseph County (Indiana) Educational Facilities Revenue Bonds	 7,890	7,890
	1,222,890	1,222,890
Obligations of consolidated company:		
Mortgage note payable	 40,622	41,686
	\$ 1,263,512	\$ 1,264,576

The aggregate scheduled maturities of bonds and notes payable are summarized by fiscal year as follows:

2023	\$ 1,109
2024	1,155
2025	38,358
2026	7,890
2027	-
Thereafter	1,215,000
	\$ 1,263,512

(All amounts in thousands)

#### TAXABLE FIXED RATE BONDS

Proceeds from Taxable Fixed Rate Bonds bear no restrictions on use and constitute unsecured general obligations of the University. The associated interest is taxable to investors. The following issues were outstanding at June 30:

	Fiscal year of final maturity	Rate of interest	 2022	2021
Series 2010	2041	4.90%	\$ 160,000	\$ 160,000
Series 2012	2043	3.72%	100,000	100,000
Series 2015	2045	3.44%	400,000	400,000
Series 2017	2048	3.39%	400,000	400,000
Series 2020	2030	1.64%	 155,000	155,000
			\$ 1,215,000	\$ 1,215,000

Interest costs incurred on Taxable Fixed Rate Bonds were \$41,425 and \$41,383 during the years ended June 30, 2022 and 2021, respectively.

#### ST. JOSEPH COUNTY (INDIANA) EDUCATIONAL FACILITIES REVENUE BONDS

The proceeds from St. Joseph County (Indiana) Educational Facilities Revenue Bonds ("SJC bonds") were restricted to the campus facilities projects specified in the respective offering documents. SJC bonds represent general obligations of the University and are not collateralized by any facilities. Interest on SJC bonds is tax-exempt to investors.

SJC bonds outstanding at June 30, 2022 and 2021 were from the Series 1996 issue, bearing interest at a fixed rate of 6.50 percent and maturing in 2026. Related interest costs were \$513 for the years ended June 30, 2022 and 2021.

#### MORTGAGE NOTES

As described in *Note 1*, the University is the sole owner of a limited liability company, the activities of which are reflected in the University's consolidated financial statements. The company's assets consist primarily of real estate, the acquisition of which was financed in part with a note payable. Under the terms, the note bears interest at a fixed rate of 4.11 percent and is due on February 1, 2025. The note is not a general obligation of the University and is fully collateralized by the property mortgaged. Interest costs of \$1,690 and \$1,733 related to the note are reflected within non-operating changes in net assets without donor restrictions for the years ended June 30, 2022 and 2021, respectively.

(All amounts in thousands)

#### NOTE 13. DERIVATIVES

The University utilizes interest rate swaps to manage interest rate risk associated with variable rate bonds. Although the University currently has no outstanding variable rate bonds, the University held three forward starting swaps at June 30, 2022, and June 30, 2021, in anticipation of future bond issues. Under the terms of the swap agreements, the University would pay fixed rates ranging from 0.65 to 3.24 percent and receive a variable rate equal to 100 percent of the one-month London Interbank Offered Rate ("LIBOR") on total notional amounts of \$354,894 for thirty-five-year terms beginning March 1, 2025, or March 1, 2030.

The University utilizes a variety of derivatives within the NDEP, which may include certain options contracts, forward currency contracts, and futures contracts, the balances and activity for which are insignificant.

Derivatives by their nature bear, to varying degrees, elements of market risk and credit risk that are not reflected in the amounts recorded in financial statements. Market risk in this context represents the potential for changes in the value of derivatives due to levels of volatility and liquidity or other events affecting the underlying asset, reference rate, or index, including those embodied in interest and foreign exchange rate movements and fluctuations in commodity or security prices. Credit risk is the possibility that a loss may occur due to the failure of a counterparty to perform according to the terms of a contract. The University's risk of loss in the event of counterparty default is typically limited to the amounts recognized in the consolidated statements of financial position, not the notional amounts of the derivatives, and is further limited by the collateral arrangements as specified for specific instruments. At June 30, 2022, the University held \$20,920 in collateral on debt-related interest rate swaps in asset positions.

The debt-related interest rate swaps described above have credit-risk-related contingent features that could require the University to post collateral to its counterparty when the swaps are in a net liability position. Collateral levels are determined based on the University's credit rating and the degree of the liability position and could extend to the full fair value of the swaps. The aggregate fair value of swaps in liability positions was \$26,769 and \$57,640 at June 30, 2022, and June 30, 2021, respectively, but based on the quality of its credit rating, the University had posted no collateral for these swaps at either of those dates.

The notional amounts and estimated fair values of the debt-related interest rate swaps at June 30, 2022 and 2021, respectively, are summarized below:

		2022	2021
Notional amounts	\$	354,894 \$	354,894
Fair value, as reflected in the statements of financial position:			
Deferred charges and other assets ( <i>Note 4</i> )		60,148	40,257
Deposits and other liabilities ( <i>Note 11</i> )		26,769	57,640

Fair value measurements are based on observable interest rates that fall within Level 2 of the hierarchy of fair value inputs. The net gain or loss on debt-related swaps is reported as such within non-operating changes in net assets without donor restrictions. Net gains of \$50,762 and \$83,063 were reported during the years ended June 30, 2022 and 2021, respectively. No periodic settlements were required for the years ended June 30, 2022 and 2021.

(All amounts in thousands)

# NOTE 14. PENSION AND OTHER POSTRETIREMENT BENEFITS

#### DEFINED CONTRIBUTION RETIREMENT SAVINGS PLAN

Faculty, exempt staff, and non-exempt staff hired on or after January 1, 2018, participate in the University of Notre Dame 403(b) Retirement Plan, a defined contribution retirement plan, upon meeting eligibility requirements. The plan, operating under section 403(b) of the Internal Revenue Code, is funded by mandatory employee contributions and University contributions. All faculty and staff may also voluntarily participate in the plan by making voluntary employee contributions up to the annual limit established by the Internal Revenue Service. Participants are immediately vested in the plan and may direct their contributions and the University's contributions on their behalf to plan investments. The University's share of the cost of these benefits was \$42,694 and \$40,996 for the years ended June 30, 2022 and 2021, respectively.

#### DEFINED BENEFIT PENSION PLAN AND POSTRETIREMENT MEDICAL INSURANCE BENEFITS

Retirement benefits are provided for University staff under a defined benefit pension plan, for which the University serves as trustee and administrator. This plan provides benefits for certain non-exempt staff but was closed to new participants effective January 1, 2018. Retirement benefits are based on the employee's total years of service and final average pay as defined by the plan. Plan participants are fully vested after five years of service. The University funds the plan with annual contributions that meet minimum requirements under the Employee Retirement Income Security Act of 1974 and Pension Protection Act of 2006.

Other postretirement benefit plans offered by the University provide either medical insurance benefits for retirees and their spouses or Health Reimbursement Accounts upon which Medicare-eligible retirees may draw to purchase individual Medicare supplemental coverage and reimburse other eligible out-of-pocket medical expenses. Employees are eligible for such benefits if they retire after attaining specified age and service requirements while employed by the University. The plans hold no assets and are funded by the University as claims are paid.

The University recognizes the full funded status of its defined benefit pension and other postretirement benefit plans in the consolidated statements of financial position. Accordingly, the liability for pension benefits as recognized in the consolidated statements of financial position represents the excess of the actuarially determined projected benefit obligation ("PBO") over the fair value of plan assets at year end. The liability for other postretirement benefits as recognized in the consolidated statements of financial position represents the actuarially determined accumulated postretirement benefit obligation ("APBO") at year end. The following table summarizes the liabilities for pension and other postretirement benefits reflected in the consolidated statements of financial position at June 30:

	2022	2021
Liability for pension benefits:		_
PBO at end of year	\$ 259,385	\$ 315,812
Less: Fair value of plan assets at end of year ( <i>Note 7</i> )	231,310	269,680
	 28,075	46,132
Liability for other postretirement benefits (APBO at year end)	45,870	58,086
	\$ 73,945	\$ 104,218

2022

(All amounts in thousands)

Changes in the actuarially determined benefit obligations are summarized below for the years ended June 30:

						Other pos	treti	rement
	Pension benefits (PBO)			benefits (API			(BO)	
		2022		2021		2022		2021
Beginning of year	\$	315,812	\$	317,717	\$	58,086	\$	59,926
Service cost		5,956		6,313		2,508		2,669
Interest cost		9,207		9,264		1,585		1,661
Actuarial gain		(59,313)		(5,916)		(14,730)		(4,564)
Benefit payments		(12,277)		(11,566)		(1,579)		(1,606)
End of year	\$	259,385	\$	315,812	\$	45,870	\$	58,086

Actuarial gains recognized during the year ended June 30, 2022 primarily reflect an increase in the discount rate used in measuring the respective benefit obligations at the report date. The accumulated benefit obligation associated with pension benefits was \$240,720 and \$295,376 at June 30, 2022 and 2021, respectively.

The change in the fair value of pension plan assets is summarized below for the years ended June 30:

	2022		2021	
Plan assets at beginning of year	\$ 269,680	\$	206,840	
Actual return on plan assets	(27,493)	63,383		
Employer contributions	1,400		11,023	
Benefit payments	(12,277)		(11,566)	
Plan assets at end of year	\$ 231,310	\$	269,680	

The components of net periodic benefit cost recognized in the consolidated statements of changes in net assets are summarized as follows for the years ended June 30:

				(	Other		
Pensi	on be	enefits		postretire	ement	nt benefits	
 2022		2021		2022		2021	
\$ 5,956	\$	6,313	\$	2,508	\$	2,669

\$	\$ 5,956 9,207 (15,581) 4,354 	2022 \$ 5,956 \$ 9,207 (15,581) 4,354 	\$ 5,956 \$ 6,313 9,207 9,264 (15,581) (13,768) 4,354 7,934 - 83 4,354 8,017 (2,020) 3,513	2022     2021       \$ 5,956     \$ 6,313       9,207     9,264       (15,581)     (13,768)       4,354     7,934       -     83       4,354     8,017       (2,020)     3,513	Pension benefits         postretire           2022         2021         2022           \$ 5,956         \$ 6,313         \$ 2,508           9,207         9,264         1,585           (15,581)         (13,768)         -           4,354         7,934         56           -         83         (50)           4,354         8,017         6           (2,020)         3,513         1,591	2022         2021         2022           \$ 5,956         \$ 6,313         \$ 2,508         \$           9,207         9,264         1,585         (15,581)         -           4,354         7,934         56         56           -         83         (50)         6           4,354         8,017         6         1,591	

The amortization of any prior service cost or credit is determined using straight-line amortization over the average remaining service period of employees expected to receive benefits under the respective plans.

(All amounts in thousands)

Gains or losses and other changes in the actuarially determined benefit obligations arising in the current period, but not included in net periodic benefit cost, are recognized as non-operating changes in the consolidated statements of changes in net assets. These changes are reflected net of a contra-expense adjustment for amounts recognized previously but included as components of net periodic benefit cost in the current period. Accordingly, the net non-operating change in net assets without donor restrictions related to pension and other postretirement benefits is summarized as follows for the years ended June 30:

	Pension	ı ben	efits	O: postretiren	tner nent l	penefits
	 2022		2021	 2022		2021
Net actuarial gain Adjustment for components of net periodic	\$ 16,239	\$	55,531	\$ 14,730	\$	4,564
benefit cost recognized previously	4,354		8,017	6		531
	\$ 20,593	\$	63,548	\$ 14,736	\$	5,095

Cumulative amounts recognized as non-operating changes in net assets without donor restrictions that had not yet been reflected within net periodic benefit cost are summarized as follows at June 30:

	Pension	bene	fits	P	Ot. oostretirem	her ent i	benefits
	 2022		2021	2022		2021	
Net loss/(gain) Prior service credit	\$ 25,551	\$	46,144	\$	(4,652) (110)	\$	10,134 (160)
Thor service credit	\$ 25,551	\$	46,144	\$	(4,762)	\$	9,974

The following weighted-average assumptions were used in measuring the actuarially determined benefit obligations (PBO for pension benefits and APBO for other postretirement benefits) at June 30:

	Pen. bene		Oth postreti bene	rement
	2022	2021	2022	2021
Discount rate	4.75%	3.00%	4.75%	3.00%
Rate of compensation increase	3.00%	3.00%		
Health care cost trend rate (grading to 4.50% in 2028)			7.00%	6.50%

Discount rates are selected based on the yields of high-grade corporate bonds with maturities similar to the period over which projected benefits would be paid.

The following weighted-average assumptions were used in measuring the actuarially determined net periodic benefit costs for the years ended June 30:

	Pen. bene		Otl postreti bene	rement
	2022	2021	2022	2021
Discount rate	3.00%	3.00%	3.00%	3.00%
Expected long-term rate of return on plan assets	6.50%	6.50%		
Rate of compensation increase	3.00%	3.00%		
Health care cost trend rate (grading to 4.50% in 2027)			6.50%	7.00%

(All amounts in thousands)

The expected long-term rate of return on pension plan assets is based on the consideration of both historical and forecasted investment performance, given the targeted allocation of the plan's assets to various investment classes.

The projected payments to beneficiaries under the respective plans for each of the five fiscal years subsequent to June 30, 2022, are as follows:

	ension enefits	postr	Other etirement enefits
2023	\$ 12,942	\$	2,420
2024	13,487		2,559
2025	14,157		2,721
2026	14,809		2,904
2027	15,418		3,064

Projected aggregate payments for pension benefits and other postretirement benefits for the five-year period ending June 30, 2032, are \$85,725 and \$17,441, respectively. The University does not anticipate a required contribution to the defined benefit pension plan during the year ending June 30, 2023.

#### **DEFINED BENEFIT PENSION PLAN ASSETS**

The plan's assets are invested in a manner that is intended to preserve the purchasing power of the plan's assets and provide payments to beneficiaries. Thus, a rate of return objective of inflation plus 5.0 percent is targeted.

The investment portfolio of the plan, which is invested with external investment managers, is diversified in a manner that is intended to achieve the return objective and reduce the volatility of returns. The plan relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends) over a long-term time horizon.

Actual and targeted allocations of the plan's investments by asset class were as follows at June 30:

	2022	2021	Target
Short-term investments	0.9%	1.6%	0.0%
Public equities	55.2%	58.3%	55.0%
Multi-strategy	29.7%	27.3%	30.0%
Private equity	14.2%	12.8%	15.0%
	100.0%	100.0%	100.0%

Asset allocation targets reflect the need for a modestly higher weighting in equity-based investments to achieve the return objective. Decisions regarding allocations among asset classes are made when such actions are expected to produce an incremental return, reduce risk, or both. The investment characteristics of an asset class—including the expected return, risk, correlation, and its overall role in the portfolio—are analyzed when making such decisions. The role of each asset class within the overall asset allocation of the plan is described as follows:

*Public equities*— Provides access to liquid markets and serves as a long-term hedge against inflation by delivering long-term capital appreciation in real terms.

*Multi-strategy*— Fixed income component provides income stability and predictable nominal cash flow relative to other asset classes. Diversifiers provide opportunities to benefit from short-term inefficiencies in capital markets.

(All amounts in thousands)

*Private equity*— Provides risk-adjusted returns in excess of public equities by investing in inefficient markets, further enhancing long-term capital appreciation.

Fair value measurements of plan investments at June 30, 2022 and 2021, respectively, are categorized below by level of the fair value hierarchy according to the lowest level of inputs significant to each measurement or NAV:

			2022		
	Level 1	Level 2	Level 3	NAV	Total
Short-term investments Public equities:	\$ 2,171	\$ -	\$ -	\$ -	\$ 2,171
U.S.	-	-	-	83,780	83,780
Non-U.S.	-	-	-	43,941	43,941
Multi-strategy	-	-	-	68,649	68,649
Private equity	 -	-	-	32,769	32,769
	\$ 2,171	\$ -	\$ -	\$ 229,139	\$ 231,310
			2021		
	 Level 1	Level 2	Level 3	NAV	Total
Short-term investments Public equities:	\$ 4,361	\$ -	\$ -	\$ -	\$ 4,361
U.S.	41,397	-	-	64,636	106,033
Non-U.S.	-	-	-	51,175	51,175
Multi-strategy	-	-	11	73,540	73,551
Private equity	 -	-	76	34,484	34,560
	\$ 45,758	\$ =	\$ 87	\$ 223,835	\$ 269,680

The plan is committed under contracts with certain investment managers to periodically advance additional funding as capital calls are exercised. Capital calls are generally exercised over a period of years and are subject to fixed expiration dates or other means of termination. Total commitments of \$25,807 and \$33,577 were uncalled at June 30, 2022 and 2021, respectively.

(All amounts in thousands)

### NOTE 15. NET ASSETS

Net assets without donor restrictions consist of the following at June 30:

	 2022	2021
University-designated endowment (Note 16)	\$ 6,830,951	\$ 7,345,695
Other net assets	 2,448,597	2,410,523
	\$ 9,279,548	\$ 9,756,218

Net assets with donor restrictions are summarized as follows at June 30, 2022:

	Purpose and/or time restrictions	Perpetual restrictions	Total
Endowment funds ( <i>Note 16</i> ):			
Endowment and funds functioning as endowment	\$ 6,939,029	\$ 2,958,965	\$ 9,897,994
Term endowment	354	-	354
Contributions receivable ( <i>Note 5</i> )	872	370,939	371,811

For long-term investment	98,886	47,496
	\$ 438,349	\$ 348,871

#### NOTE 16. ENDOWMENT

The University's endowment consists of individual funds established for a variety of purposes. Net assets associated with endowment funds, including funds functioning as endowment, are classified and reported in accordance with any donor-imposed restrictions or University designations.

Expendable funds with purpose-related restrictions that have been designated as endowment at the University's discretion, as well as endowment funds for which the donor has granted the University flexibility to expend, are classified as university-designated endowment funds with donor restrictions.

(All amounts in thousands)

Endowment funds at June 30, 2022, are summarized as follows:

	V	Vithout donor restrictions	With donor restrictions	
		(Note 15)	(Note 15)	Total
Funds established to support:

(All amounts in thousands)

The fair value of assets associated with individual donor-restricted endowments may fall below the level to be maintained in perpetuity when the timing of contributions coincides with unfavorable market fluctuations. At June 30, 2022, the aggregate fair value of underwater funds was \$128,152, which reflects collective deficiencies of \$8,296 below the \$136,448 aggregate level required. There were no funds in underwater positions at June 30, 2021.

Endowment funds are invested primarily in the NDEP, described in *Note 7*. However, certain funds are invested outside of the NDEP in accordance with donor requirements and other considerations.

Changes in endowment funds are summarized as follows for the years ended June 30:

	V	Vithout donor restrictions	With donor restrictions	<b>2022</b> <i>Total</i>
Beginning of the year	\$	7,345,695	\$ 11,039,659	\$ 18,385,354
Contributions Investment return:		21,838	304,994	326,832
Investment income		57,569	83,024	140,593

Other changes, net <sup>1</sup>		20,051	(3,458)	16,593
	\$	7,345,695	\$ 11,039,659	\$ 18,385,354

<sup>&</sup>lt;sup>1</sup>Reflects the net effects of changes in donor intent and management-directed allocations that result in additions to or withdrawals from endowment. During the year ended June 30, 2022, \$150,000 in net assets without donor restrictions was formally designated as funds functioning as endowment for the support of future campus infrastructure projects.

The University has adopted an endowment spending policy that attempts to meet three objectives: (1) provide a predictable, stable stream of earnings to fund participants; (2) ensure the purchasing power of this revenue stream does not decline over time; and (3) ensure the purchasing power of the endowment assets does not decline over time. Under this policy, as approved by the Board of Trustees, investment income, as well as a prudent portion of appreciation, may be appropriated for the needs of supported programs and purposes. During periods in which funds are in underwater positions, payout to supported programs is subsidized by University reserves to preserve donor-restricted endowment principal.

(All amounts in thousands)

Endowment payout (i.e., appropriations) under the University's endowment spending policy is summarized below by the purposes associated with applicable funds for the years ended June 30:

	Wi	thout donor	With donor	2022

	\$	(2,410)	\$ 101,955	\$ 99,545	\$ 135,770

<sup>&</sup>lt;sup>1</sup>Represents the present value of estimated future benefit payments to beneficiaries.

(All amounts in thousands)

Assets contributed pursuant to the University's charitable gift annuity program are not held in trust and based on the nature of the agreements are designated as funds functioning as endowment. Total assets associated with the charitable gift annuity program were \$47,318 and \$52,956 at June 30, 2022 and 2021, respectively.

Changes in split-interest agreement net assets are summarized below for the years ended June 30:

	Wit	hout donor	With donor	2022	2021

<sup>&</sup>lt;sup>1</sup>Represents the present value of estimated future benefit payments to beneficiaries.

### NOTE 18. NET TUITION AND FEES

Tuition and fees are recognized net of discounts granted in the form of undergraduate scholarships (including grants-in-aid to student-athletes) and graduate and professional fellowships. Net tuition and fees are comprised of the following for the years ended June 30:

		2022	
	 Tuition and fees	Scholarships d fellowships	Net tuition and fees
Undergraduate programs Graduate and professional programs	\$ 531,416 220,102	\$ (221,951) (160,261)	\$ 309,465 59,841
	\$ 751,518	\$ (382,212)	\$ 369,306
		2021	
	 Tuition and fees	Scholarships d fellowships	Net tuition and fees
Undergraduate programs Graduate and professional programs	\$ 511,846 206,661	\$ (207,847) (149,487)	\$ 303,999 57,174
Graduate and professional programs	\$ 718,507	\$ (357,334)	\$ 361,173

(All amounts in thousands)

#### NOTE 19. GRANTS AND CONTRACTS

The University recognized operating revenues based on direct expenditures and related indirect costs funded by grants and contracts as follows for the years ended June 30:

	D.	y 1.	2022	2021
	 Direct	Indirect	Total	Total
Provided for:				
Research	\$ 131,236	\$ 32,721	\$ 163,957	\$ 142,601
Other sponsored programs	20,445	1,137	21,582	18,197
	\$ 151,681	\$ 33,858	\$ 185,539	\$ 160,798
			2022	2021
	Direct	Indirect	Total	Total
Provided by:				
Federal agencies	\$ 102,415	\$ 30,441	\$ 132,856	\$ 116,911
State and local agencies	622	28	650	665
Private organizations	48,644	3,389	52,033	43,222
-	\$ 151,681	\$ 33,858	\$ 185,539	\$ 160,798

As reflected in *Note 10*, the University had received \$108,990 in refundable advances on awards as of June 30, 2022. In addition, the University had unexpended grant awards of approximately \$217,000 for which funding has not been received. Revenue for these awards will be recognized as their associated conditions are fulfilled.

Funding for federally sponsored research and other programs is received from the U.S. government, as well as from other universities and private organizations that subcontract sponsored research to the University. The University's primary sources of federal research support are the Department of Health and Human Services and the National Science Foundation.

The University also administers certain federally sponsored programs, primarily related to student financial aid, for which it recognizes neither revenues nor expenses. Receipts and disbursements for such programs totaled \$23,772 for the year ended June 30, 2022, including \$13,299 related to Reserve Officers Training Corps ("ROTC") scholarships. Receipts and disbursements for the year ended June 30, 2021, were \$18,206, including \$8,351 in ROTC scholarships.

(All amounts in thousands)

### NOTE 20. SALES AND SERVICES OF AUXILIARY ENTERPRISES

Revenues recognized from auxiliary enterprises are summarized as follows for the years ended June 30:

	 2022	2021
Intercollegiate athletics:		_
Contract-based revenues	\$ 145,099	\$ 109,414
Other revenues	28,222	5,140
Housing, dining, and other student revenue, net	104,755	91,143
Hospitality services	30,311	14,285
Event management services	15,320	255
Bookstore and licensing	14,676	9,549
Other auxiliary revenues	3,375	3,293
	\$ 341,758	\$ 233,079

#### NOTE 21. CONTINGENCIES AND COMMITMENTS

The University is a defendant in various legal actions arising out of the normal course of its operations. Although the final outcome of such actions cannot currently be determined, the University believes that eventual liability, if any, will not have a material effect on the University's financial position.

All funds expended in conjunction with government grants and contracts are subject to audit by government agencies. In the opinion of management, any liability resulting from these audits will not have a material effect on the University's financial position.

At June 30, 2022, the University also has contractual commitments of approximately \$60,000 related to ongoing major construction projects. Estimated remaining expenditures on these projects, certain of which are likely to span multiple fiscal years, are approximately \$210,000.
